“How important to your research are the following types of data?”
1 is ‘not at all important’ and 10 is ‘extremely important’
Where do you preserve and store your data?

- Your own computers
- Non-networked devices
- Cloud storage
- Mobile devices
- Library services

8-10
4-7
1-3
If collections or sets or research data are preserved following the conclusion of the projects, what methods are used to preserve them? (pick one or more)
